

*Lindani Matthews Buthelezi was born in 1984 in KwaNyuswa. His father died in the 1987 floods when he was 3. His mother died in 2000 when he was 16.*

*Lindani, like most of our students, was always hard working, diligent and willing to go the 'extra mile'. He paid his own school fees, books, transport, uniform and food through a part time job until he matriculated well enough to obtain a place at the University of KwaZulu Natal. Over the 4 year course, HAB & BF paid his registration fee, R7500 for second hand books essential for his course and topped up his NSFAS loan to pay the balance of his tuition payments.*

*Lindani was lucky in that he found someone willing and able to underwrite his NSFAS loan while he studies B Com in Accounting and Logistics Management. Since graduating in 2011 Lindani worked for Pick n Pay in Johannesburg as a Category Demand Planner and is now working for Rainbow Chickens in Westville as a Stock Allocations Planner. Lindani keeps in contact through Linked In.*
